Grifols Therapeutics

Grifols is a global healthcare company that since 1909 has enhanced the health and well-being of people around the world. They are an industry leader in producing plasma-derived medicines and transfusion medicine. Their business is organized into four divisions: Bioscience, Diagnostic, Hospital and Bio Supplies. They sell our products and services in more than 100 countries and regions and have subsidiaries in 30 of them. Their aim to be a global leader in our markets and an industry reference for quality, safety and innovation.
